

# INSTRUCTION MANUAL FOR BULLPUP

Read the instructions and warnings in this manual carefully before using this firearms

## LOADING AND DISHARGING

**1-** Please take the safety button to S location to safety your gun which located on trigger guard of your gun

**2-** Release your magazine with the button which locates behind of the magazine

**3-** Load the magazine as hown.

**4-** Place the loaded magazine as shown up forward.

## LOADING AND DISCHARGING

**5-** Pull the bolt handle back and release. While the bolt is sliding forward magazine carrier will let the cartridge in front of the bolt and the bolt will lock the cartridge in the chamber.

Do not catch the bolt handle while sliding forward. Otherwise the locking will not be done. One cartridge of the magazine capacity is chambered now. Once a cartridge has been chambered, the magazine may be removed at any time desired for refilling to full capacity. You can now fill another cartridge in to the magazine instead of chambered one. Thus the capacity of your shotgun will be filled. Open the safety latch by pushing from the right side. You will see the red colour. Be careful and do not touch the trigger during this time. Now your shotgun is ready to fire. When you fire, your shotgun will automatically discharge the fired cartridge and will fill one from the magazine.

**6-** Release your magazine with the button which locates behind of the magazine

## LOADING AND DISHARGING

**7-** To discharge the cartridge in the chamber, pull back the bolt handle.

Mecanism will discharge the cartridge out while sliding back.

**8-**Take out the cartridges in the magazine as shown.

**9-** Bolt will not be released if you pull back the mechanism when there is no cartridges in the magazine.

**10-** Push the mechanism release button on the left side of case.

## LOADING AND DISCHARGING

**11-** Please take the safety button to S location to safety your gun that located on trigger guard of your gun

**12-** The cocking handle can be used on both sides. Just remove the cocking handle from one side and insert to the other side.

## MAINTENANCE OF SHUTGUN

**13-** Remove the barrel cover located on the muzzle by rotating it counter-clockwise.

**14-** Please eject the pin with a pointed tool to reassembly the forend

**15-** The assembly pim that you pushed. Stay in hole and it does not go out completely

**16-** Reassembly the forend

**17-** Move to right and left sight the gas chamber to reassembly.

## **SAFETY INSTRUCTIONS**

Always follow the safety instructions for your safety and the safety of others

-Always handle your firearm as if it were loaded and do not forget firearms are different no matter how much you are experienced.

-Please understand that the first step of safety is yourself. Your shotgun

is a not living object, can not think of safety. It is under your control and using carelessly can cause accidents!

-Never point your firearm at anything you do not intend to shoot and never take anyone's word that the gun is unloaded.

-Never use your shotgun when you are drunk, had drugs, when riding, when driving and when you feel yourself unwell.

-Never shoot at hard surface such as rock, ora liquidsurface such as water.

-While shoooting use protection material for you eyes and ears.

Always keep your shotgun and cartridges away from the children that they can not reach. If possible in a locked safe place.

Never leave a loaded firearm unattended.

Always use only clean.dry, original high quality commercially manufactured ammunition, which

is appropriate to the gauge of your firearm.

Do not shoot your shotgun without choke tubes and be sure the choke tubes are properly fitted in the muzzle. (On multi choke shotguns only)

Never keep your hand in front of muzzle when shotgun is loaded.

Be careful to follow the instructions correctly and always make sure your firearm is not loaded before/when assembling, dismantling and/or maintaining and cleaning your shotgun to avoid injuries.

Before shooting be sure that inside of the barrel is exactly clean.
